DEPARTMENT OF AGRICULTURE.¹

I. ORGANIZATION AND MANAGEMENT.

1. *Executive Officers.*

The Department of Agriculture is composed of executive and non-executive officers. The executive officers are: a Director, an Assistant Director, a General Manager of the State Fair, a Superintendent of Foods and Dairies, a Superintendent of Animal Industry, a Superintendent of Plant Industry, a Chief Veterinarian, a Chief Game and Fish Warden and a Food Standard Commission, consisting of the Superintendent of Foods and Dairies and two food standard officers, one of whom to be a representative of the Illinois food manufacturing industries and the other to be an expert food chemist of known reputation. (Secs. 4, 5, 7, Code.)

2. *Non-Executive Officers.*

The advisory or non-executive officers are: Fifteen persons as a Board of Agricultural Advisors, composed of persons engaged in agricultural industries, including representatives of the agricultural press and of the State Agricultural Experiment Station; and nine persons as a Board of State Fair Advisors. (Secs. 5, 6, 7, Code.)

3. *Seal.*

Departments are required to adopt and authenticate their acts by an official seal. (Sec. 19, Code.)

4. *Central and Branch Offices.*

Each department is required to maintain a central office at the Capitol. Branch offices for the conduct of a particular function of the department may be established and maintained at other places by the Director with the approval of the Governor. (Sec. 17, Code.)

5. *Employees, Civil Service.*

From those who are in the classified civil service of the State on July 1, 1917 in the office, board, commission or institution coming under the supervision and control of the department, each employee is to be assigned to a position in the department, having so far as possible duties equal to his former office or employment, provided no more are employed than are necessary to the proper performance of the functions of the department. (Sec. 24, Code.)

Departments have power, subject to civil service laws, to employ all other necessary employees and fix their compensation, when their compensation has not been theretofore determined by law. (Sec. 20, Code.)

6. *Rules and Regulations.*

It is the duty of the Director to prescribe rules and regulations for the government of his department, the conduct of its employees, the distribution and performance of its business and the custody, use and preservation of the property, records and documents. (Sec. 16, Code.)

¹ The State Board of Agriculture is abolished by the repeal of "An Act to revise the law in relation to the department of agriculture, agricultural societies and agricultural fairs, and to provide for

reports of the same," approved June 23, 1883, in force July 1, 1883; which repeal is not to take effect until January 1, 1919 (Sec. 65, Code).

7. *Cooperation, Coordination and Efficiency.*

The Director is to devise a practical system of cooperation and coordination of the work of the department to eliminate all duplication and overlapping of functions, and to economize, whenever practicable, in the use of quarters and equipment. With the consent of the superior officer of the employee, the Director may require an employee of another department to perform any duty that is required of his own employees. (Sec. 26, Code.)

8. *Moneys, Disposition.*

All State funds or moneys received by a department must be turned over to the State treasury within ten days of receipt, without any deduction whatsoever. (Sec. 27, Code.)

9. *Expenditures.*

Departments are forbidden to make expenditures except in consequence of an appropriation duly made and upon the warrant of the Auditor of Public Accounts. (Sec. 27, Code.)

10. *Reports.*

In addition to the semi-annual and biennial reports provided for by the Constitution, the Director is required to make on or before December annually to the Governor, and whenever otherwise requested, written report concerning the condition, management and financial transactions of the department. (Sec. 25, Code.)

II. POWERS AND DUTIES.

11. *Generally.*

This department is vested with the power to

- Prevent fraud in the manufacture and sale of fertilizers;
- Promote and improve the methods of conducting agriculture, horticulture, live stock industry, dairying, poultry, bee keeping, forestry, fishing, the production of wool and other allied industries;
- See that the places where live stock is confined, housed or fed, such as stockyards, breweries, distilleries and like places, are properly cared for;
- Collect and publish statistics relative to production and marketing of crops, beef, pork, poultry, fish, mutton, wool, butter, cheese and other agricultural products;
- Encourage the planting of trees, shrubs and improvement of farm homes;
- Manufacture biological products for distribution at cost to live stock producers;
- Investigate the causes and the means of prevention and cure of contagious, infectious and communicable diseases among domestic animals;
- Preserve, distribute, introduce and restore fish, game birds and other wild birds;
- Have the custody of and maintain the fair grounds, buildings and property, and police the same;
- Hold annual State fairs, and adopt rules and regulations governing the same;
- Promote the organization of farmers' institutes, horticultural and agricultural societies, hold fairs, stock shows and other exhibits and see that moneys appropriated for them are faithfully applied; and
- Generally to exercise the rights, powers and duties vested in the following former officers, boards and commissions: Live Stock Commissioners (except under the act regulating the practice of veterinary, medicine and surgery); State Veterinarian; Stallion Registration Board; Inspector of Apiaries; Game and Fish Commission; State Food Commissioner; and State Entomologist. (Sec. 40, Code.)

12. Live Stock (Commissioners).

The duties of the former Board of Live Stock Commissioners and the State Veterinarian² now devolved upon this department with reference to domestic animals are to

- ³Investigate all cases, or alleged cases, of communicable diseases among domestic animals within this State;
- Prevent the spread of⁴ communicable diseases and provide for the extirpation thereof;
- Order strict quarantine of diseased animals, or such as have been exposed to contagion after examination has been made pursuant to notice of owner or person having charge of animals whose duty it is to notify State officers of suspected cases;
- Prescribe quarantine regulations sufficient to prevent infection;
- ⁵Order the slaughter of diseased or exposed animals to prevent infection or spreading of the disease;
- Order the destruction of infected barns, stables, premises, fixtures, furniture, and personal property when the same cannot be properly disinfected;
- Order disinfection of cars, boats, or other conveyances used in transporting animals, having or being exposed to communicable diseases;
- Order the disinfection of yards, pens and schuts used in handling diseased or exposed animals;
- Agree with owner upon the value of the animals or the property to be destroyed, or appoint three disinterested appraisers to appraise the animals or property in case no agreement be possible;
- Destroy infected animals or property when owner fails to destroy them (Sec. 2, Animals' Contagious Diseases Act);
- ⁶Report to the Governor existence of communicable diseases among domestic animals in the particular municipality, district or in any other state, province or country, and the necessity for quarantine under proclamation (Secs. 3 and 4, *Ibid.*);
- ⁷Prescribes rules and regulations for the filing of claims arising from the slaughter of animals and determine amount to be allowed (Sec. 8, *Ibid.*);

² The scope of the State Veterinary Act of May 31, 1881, as amended in 1883, is fully covered by the Live Stock Commissioners' Act of June 14, 1909, as amended in 1915. The Veterinary Act is repealed because (1) the Live Stock Commissioners' Act is general, deals with the whole subject of contagious diseases and is a later act; (2) no legislative attention has been given the Veterinary Act since 1883; and (3) the only reason for its existence up to now was its provision for the appointment of a State Veterinarian, which reason no longer exists on account of the abolishment of that office.

³ In so far as this act permits the investigation of animals suspected of being affected with dangerously contagious and infectious diseases of a communicable character and provides a summary method for their killing it is a valid exercise of the police power of the State. *Durand v. Dyson* (1916), 271 Ill. 382, 390.

⁴ Contagious disease means one communicable by contact. *Pierce v. Dillingham* (1903), 203 Ill. 148, 158.

⁵ Authority to kill or destroy is given only in cases of contagion or infection; and when questioned in an action for damages, the officer who had ordered the killing or destroying of animals on account of their contagious or infectious character has the burden of establishing affirmatively the actual existence of the disease or the exposure; he cannot rely merely upon having acted in good faith, having had reasonable grounds for the belief of the existence of the disease or in the exposure and having made an honest and careful investigation to the best of his ability. *Pearson v. Zehr* (1891), 138 Ill. 48, 51.

⁶ Section 4 of the Animals' Contagious Diseases Act is penal in its nature and the power of the

officer acting thereunder will be restricted to some particular condition or emergency in respect to the live stock of the State. *Pierce v. Dillingham* (1903), 203 Ill. 148, 156, 157.

The report to the Governor is justified only when contagious or infectious diseases become epidemic; and the report must state that a particular disease exists in an epidemic form in a certain locality, that the stock in question come from that locality where the disease is epidemic, or that the cattle are in fact affected with it or that their condition is such that it might render them liable to convey the disease. *Pierce v. Dillingham* (1903), 203 Ill. 148, 158, 162.

⁷ Rules and regulations made to effectuate the purpose of the act must conform to fundamental principles of constitutional legislation. *Pierce v. Dillingham* (1903), 203 Ill. 148, 164.

Officers or agents who are charged with the enforcement of government rules and regulations have no power to relieve from the obligation to obey them. Thus an inspector of the Bureau of Animal Industry is not authorized to permit the substitution of crude petroleum for Beaumont crude petroleum in which to dip horses affected with the tick, under rules and regulations of the Department of Agriculture specifying Beaumont crude petroleum to be used, unless another method is approved by the Secretary of Agriculture, and no such approval is obtained; it being shown that the pores and the skins of horses and those of cattle differ, Chanute oil closing the pores in the skins of horses thereby obstructing the operation of the sweat glands and causing disease in the kidneys, which effect does not follow the use of such oil upon cattle. *McGilton v. St. Louis National Stock Yards* (1912), 254 Ill. 178, 182-184.

- Call on sheriffs and their deputies, constables, police officers, mayors, town marshals, and policemen for assistance to carry out provisions of the act (Sec. 9, *Ibid.*); and
- Cooperate with similar commissioners or officers of the United States in the suppression of contagious or infectious diseases among domestic animals (Sec. 10, *Ibid.*);
- Prescribe rules and regulations for the cleaning and disinfecting of cars or quarters used in transporting cattle from scheduled territory on account of the splenic or Texas fever (Sec. 2, Texas Fever Act);
- Prosecute, through State's attorneys, violations of the Texas Fever Act (Sec. 5, *Ibid.*);
- Inspect animals intended for human food and suspected of being afflicted with contagious or infectious disease;
- Take possession and control of animals found to be afflicted with contagious or infectious diseases, notify their owner, cause the killing of the animals, examine the carcasses after the killing and mark tags or labels "inspected and condemned," if carcasses are unfit for human food;
- Provide for accounting for the proceeds of carcasses found to be safe and sold for food purposes (Sec. 2, Meat Inspection Act).

13. Stallion Registration.

The Stallion Registration Act, vesting certain powers and duties in the former Stallion Registration Board, is repealed by a similar act of 1917, under which the Department of Agriculture has the following powers and duties, namely, to

- Enroll stallions for public service in this State (Sec. 1);
- Issue stallion license certificates, upon owner's or licensed veterinarian's affidavit that stallion is free from hereditary infectious, contagious or transmissible disease or unsoundness (Sec. 2);
- Collect an examination and enrollment fee of \$2.00, an annual or renewal fee of \$1.00 and transfer fee of 50 cents (Sec. 7);
- Keep records of enrolled stallions indicating whether stallion be "pure brood" or "grade," etc. (Sec. 4);
- Hear complaints and revoke licenses (Sec. 9);
- Prescribe forms for license certificates (Sec. 6);
- Report annually to the Governor concerning the department's activities under this act and financial condition (Sec. 12).

14. Stock Breeding.

Upon the filing of a verified statement, giving the name, age, description, pedigree and the terms and conditions under which the sire is advertised for service, the

- Open any package,⁹ can or vessel containing any article manufactured, sold or exposed for sale in violation of law, inspect the contents thereof, and take samples therefrom (Sec. 2);

⁹ A package of a canning compound manufactured in another state enclosed in an envelope or covering and sold in this State for domestic use as a preservative is not an original package within

the doctrine of "original package." *People v. Price* (1913), 257 Ill. 587, 595, aff'd in *Price v. People* (1915) 238 U. S. 446, 455.

- Select two of sealed or unbroken packages or divide into two equal parts goods in bulk or broken package, identify them as samples in the presence of the person from whom the samples are taken, mark and seal each half or part of the sample with a paper seal, number each sample with the same number, write the name of the person taking the sample and the name of the dealer, have the person from whom the sample was taken write his name, at the same time give notice to him that the sample is obtained for examination by the State Food Commissioner tendering to him the value of the part to be taken, deliver to him the other part; take or send properly packed and boxed the part of the sample taken to the State Entomologist or other person for examination or analysis (Sec. 4);

- Seize, if necessary without warrant, any article of food suspected to be adulterated¹⁰ or misbranded, make an inventory thereof, give a copy of same to dealer, tag the article, notify the dealer to hold same until further notice, cause article to be examined, and conduct hearing if article be found to be adulterated or misbranded (Sec. 29);
- Inspect egg breaking establishments and equipment, ascertain if they comply with sanitary laws, rules and regulations, certify to the State Treasurer that they are entitled to license for the purpose of collecting fee, and issue license upon payment of said fee;
- Approve identification "strips" to be used for sealing of cases of "breaking stock" of eggs packed for shipment;
- Furnish egg breaking establishment identifying establishment number and promulgate rules prescribing manner of placing same on containers (Sec. 39b);
- Serve notice and copy of findings by registered mail upon party from whom samples of food have been taken and found to be contrary to law, the notice to specify the date, hour and place of hearing;

¹⁰ The word "adulterated" used in the title of the Pure Food Law includes the "adulteration" of an article manufactured contrary to the provisions of the act, although the article is not in itself harmful. *People v. Henning Co.* (1913), 260 Ill. 554, 564.

It is not alone the particular method of adulteration that existed at the time of the passage of the act, but any method of adulteration which is liable to mislead the public is prohibited by the statute. *People v. Henning Co.* (1913), 260 Ill. 554, 558.

Boric acid is by section 8 of the Pure Food Law declared unwholesome and injurious to health and cannot be used as an added ingredient to foods, and under section 22 of said act it also must not be made a part of any compound to be sold as a food preservative. *People v. Price* (1913), 257 Ill. 587, 593, aff'd in 238 U. S. 446, 451.

The legislative declaration that boric acid is unwholesome and injurious to health, although the injurious nature of boric acid is not universally

conceded, is binding upon the courts. *People v. Price* (1913), 257 Ill. 587, 594; aff'd in 238 U. S. 446, 452.

The mixing or combining of sugar vinegar and distilled vinegar in substantial proportions which results in a color similar to that of cider vinegar constitutes an adulteration within the meaning of section 11 of the Pure Food Law, notwithstanding the proper labeling of the mixture. *People v. Henning Co.* (1913), 260 Ill. 554, 558, 561.

The phrase "shall not be colored in imitation of cider vinegar" means a conscious imitation, in the manufacture, of the article forbidden. *People v. Henning Co.* (1913), 260 Ill. 554, 560.

The sale of unwholesome preservatives are within the legitimate scope of the title of this act. *People v. Price* (1913), 257 Ill. 587, 595.

The proper labeling of an adulterated article does not take that article out of the operation of the Pure Food Law. *People v. Henning Co.* (1913), 260 Ill. 554, 558.

"Prosecute all violations of act after that fact has been ascertained at a private hearing pursuant to notice (Sec. 40);

Rescind, confirm or amend orders issued to abate conditions or violations after hearing pursuant to notice, enter final order and serve notice of such order when parties fail to appear;

Certify to proper State's attorneys failure to comply with final order to abate nuisance (Sec. 11).

By the provisions of the Stock Food Law, the State Food Commissioner is required to

Receive copies of statements of concentrated commercial feeding stuffs required to be filed annually in December (Sec. 1, Stock Food Law);

Enter premises where feed stuffs for commercial feed are sold, take samples, not to exceed two pounds, place same in a suitable vessel, attach label giving the name or brand of the feed stuffs or material sampled, the guaranty, the name of the manufacturer, importer or dealer, the name of the person, firm or corporation from whom the sample is taken, the date and place of taking it, and signed as State Food Commissioner or Deputy—which sample must be taken in duplicate, whenever request for same be made, carefully sealed and signed in the presence of the person interested, one to be retained by the person whose stock is sampled;

Cause to be made annually at least one analysis of each feed stuff collected and furnish the result of the analysis and other information of value regarding same to the Agricultural Experiment Station for publication in their bulletins or special circulars (Sec. 5, *Ibid.*);

Issue annual certificate or license to manufacturer, importer or dealer in concentrated commercial feeding stuffs (Sec. 8, *Ibid.*);

Summarize such reports for public inspection (Sec. 4);

Inspect food articles, supervise cold storage warehouses and appoint inspectors (Sec. 5);

¹¹ The intentional imitation is the gist of the action of debt for a violation of section 11 of the Pure Food Law, whether such an imitation is

produced by the addition of dye or by mixing of two ingredients. *People v. Henning Co.* (1913), 260 Ill. 554, 560.

29. *Public Corporation.*

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That to assist and encourage useful education among the farmers and for developing the agricultural resources of the State that an organization under the name and style of "Illinois Farmers' Institute" is hereby created and declared a public corporation of the State.

30. *Delegates.*

SEC. 2. It shall consist of three delegates from each county of the State, elected annually at the farmers' institute for said county by the members thereof.

31. *Management.*

SEC. 3. The affairs of the Illinois Farmers' Institute shall be managed by a board of directors¹⁴ consisting of

- (1) State Superintendent of Public Instruction.
- (2) Professor of Agriculture of the University of Illinois.
- (3) President of the State Board of Agriculture.

¹³ By subdivision 20, section 40 of the Administrative code, the Department of Agriculture is required "to assist, encourage and promote the organization of farmers' institutes, horticultural and agricultural societies, the holding of fairs, fat stock shows, or other exhibits of the products of agriculture." The act creating an "Illinois Farmers' Institute" specifies two classes of powers, one in respect to the expenditure of appropriations and the other concerning the holding of annual public meetings. The first power has been limited by decision and legislative enactment (holding that

provisions of this character may be affected by the General Appropriation Act). The second power conflicts with the general scheme of the Administrative code and the powers vested by it in the Department of Agriculture.

¹⁴ None of the members and officers, except the Superintendent of Public Instruction, nor the employees of the Illinois Farmers' Institute, are officers nor in the service of the State, and necessarily are not subject to the State Civil Service Act. *Farmers' Institute v. Brady* (1915), 267 Ill. 98, 102.

(4) President of the State Horticultural Society.

(5) President of the State Dairymen's Association.

And one member from each congressional district of the State, to be selected by the delegates from the district present at the annual meeting of this organization: *Provided*, that the members first selected from the congressional districts of even numbers shall serve for one year, and the members first selected from the congressional districts of odd numbers shall serve for two (2) years, and that the members selected thereafter to fill expired terms of office, shall serve for a period of two (2) years.

32. *Directors, Powers.*

SEC. 4. The board of directors of the Illinois Farmers' Institute shall have sole care and disposal¹⁵ of all sums that may be appropriated by the State to sustain the organization, and shall expend the same in such manner as in their judgment will best promote the interests in useful education among farmers and develop the agricultural resources of the State. The Illinois Farmers' Institute shall make annual report to the Governor of its transactions, which report shall include papers pertaining to its work and addresses made at the annual meeting of the organization, and a statement of all moneys received and all expenditures made, and fifty thousand (50,000) copies of such report shall be printed and bound in cloth on or before September 1, of each fiscal year, three-fourths for use of the Illinois Farmers' Institute, and the remainder to the Secretary of State for distribution. It shall make no appropriation without funds in hand to meet the same, and the State of Illinois shall in no event be liable or responsible for debt, obligation or contract made by the Illinois Farmers' Institute or its board of directors. (As amended by act approved June 10, 1909, in force July 1, 1909. L. 1909, p. 5.)

33. *Annual Meeting.*

SEC. 5. There shall be held annually, under the direction of the board of directors, between October 1 and March 1 following, of each year, a public meeting of the delegates from county farmers' institutes and of farmers of this State at such time and place as may be determined by the board of directors of not less than three (3) days duration, which meeting shall be held for the purpose of developing the greater interest in the cultivation of crops, in the care and breeding of domestic animals, in dairy husbandry, in horticulture, in farm drainage, in improved highways, and general farm management, through and by means of liberal discussion of these and kindred subjects and any citizen may take part in these meetings, but only duly elected and accredited delegates from county farmers' institutes shall be permitted to vote in the election of the board of directors.

34. *Directors, Election and Duties.*

SEC. 6. The members of each new board of directors shall enter upon their duties the second Tuesday after their election and hold their offices for one or two years, as provided in section 3, or until their successors are elected and enter upon their duties.

The board of directors shall have power to fill vacancies in the board. It shall organize by the election of a president, vice president, treasurer and secretary, who shall hold their offices for one year, their term of office to begin July 1, following their election. It shall employ such superintendents, speakers and clerks as may be deemed proper for organizing and conducting the work of the Illinois Farmers' Institute and provide for their compensation by the rules of the board of directors.

The secretary and the treasurer may be other than members of the board of directors.

The salary of the secretary shall be two thousand dollars (\$2,000) a year, payable in monthly installments.

¹⁵ Section 4 of the act creating the Illinois Farmers' Institute and placing in the hands of the board of directors all sums appropriated to it does not prevent the Legislature from subsequently

requiring the board to furnish itemized bills showing expenditures of moneys. *Farmers' Institute v. Brady* (1915), 267 Ill. 98, 102.

The Auditor of Public Accounts is hereby authorized to draw his warrant on the State Treasurer monthly for the salary of the secretary of the Illinois Farmers' Institute, as herein provided, payable out of any fund in his hands not otherwise appropriated. (As amended by act approved May 15, 1903, in force July 1, 1903. L. 1903, p. 4.)

35. Quarters.

SEC. 7. Rooms in the Capitol building shall be assigned to the officers of this organization by the proper authority, which shall then be under the control of the board of directors.

36. By-Laws.

SEC. 8. The board of directors may make and enforce such rules and by-laws, not in conflict with the laws of this State, as will render its work most useful and efficient.

37. Appropriations.

SEC. 9. For the purpose mentioned in the preceding sections, said board of directors may use such sum as it may deem proper and necessary, not exceeding the amount appropriated therefor by the General Assembly, from the general fund for that purpose. *Provided, further, That the*

- (1) State Superintendent of Public Instruction.
- (2) Professor of Agriculture of the University of Illinois.
- (3) President of the State Board of Agriculture.
- (4) President of the State Horticultural Society.
- (5) President of the State Dairymen's Association.

And the present Congressional Representatives of the Illinois Farmers' Institute Association shall constitute the first board of directors of this organization, who shall have charge of the affairs of the same until their successors have been duly elected and enter upon their duties as provided in this act.

39. *Inspector.*

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly: (Repealed by implication.)*

40. *Inspection, Nuisance, Notice.*

SEC. 2. It shall be the duty of every person maintaining or keeping any colony or colonies of bees to keep the same free from the disease known as foul brood and from every contagious and infectious disease among bees. All bee-hives, bee-fixtures or appurtenances where foul brood or other contagious or infectious diseases among bees exists, are hereby declared to be nuisances to be abated as hereinafter prescribed. If the inspector of apiaries shall have reason to believe that any apiary is infected by foul brood or other contagious disease he shall have power to inspect, or cause to be inspected, from time to time, such apiary, and for the purpose of such inspection he, or his assistants, are authorized during reasonable business hours to enter into or upon any farm or premises, or other building or place used for the purpose of propagating or nurturing bees. If said inspector of apiaries, or his assistants, shall find by inspection that any person, firm or corporation is maintaining a nuisance as described in this section, he shall notify in writing the owner or occupant of the premises containing the nuisance so disclosed of the fact that such nuisance exists. He shall include in such notice a statement of the conditions constituting such nuisance, and order that the same be abated within a specified time and a direction, written or printed, pointing out the methods which shall be taken to abate the same. Such notice and order may be served personally or by depositing the same in the post office properly stamped, addressed to the owner or occupant of the land or premises upon which such nuisance exists, and the direction for treatment may consist of a printed circular, bulletin or report of the inspector of apiaries, or an extract from same.

If the person so notified shall refuse or fail to abate said nuisance in the manner and in the time prescribed in said notice, the inspector of apiaries may cause such nuisance to be abated, and he shall certify to the owner or person in charge of the premises the cost of the abatement and if not paid to him within sixty days thereafter the same may be recovered, together with the costs of action, before any court in the State having competent jurisdiction.

In case notice and order served as aforesaid shall direct that any bees, hives, bee-fixtures or appurtenances shall be destroyed and the owner of such bees, hives, bee-fixtures or appurtenances shall consider himself aggrieved by said order, he shall have the privilege of appealing within three days of the receipt of the notice to the County Court of the county in which such property is situated. The appeal shall be made in like manner as appeals are taken to the County Court from judgments of justices of the peace. Written notice of said appeal served by mail upon the inspector of apiaries shall operate to stay all proceedings until the decision of the County Court, which may, after investigating the matter, reverse, modify or affirm the order of the inspector of apiaries. Such decision shall then become the order of the inspector of apiaries, who shall serve the same as hereinbefore set forth and shall fix a time within which such decision must be carried out.

41. *Report.*

SEC. 3. The inspector of apiaries shall, on or before the second Monday in December of each calendar year, make a report to the Governor and also to the Illinois State Bee Keepers' Association, stating the number of apiaries visited, the number of those diseased and treated, the number of colonies of bees destroyed and the expense incurred in the performance of his duties.

ENTOMOLOGIST.

AN ACT to prevent the introduction and spread in Illinois of the San Jose scale and other dangerous insects and contagious diseases of fruits, and repealing a certain act therein named. Filed June 4, 1907, in force July 1, 1907. L. 1907, p. 558.

§3. Nurseries, Inspection, Certificate.

SECTION 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That it shall be the duty of the State entomologist of Illinois to inspect, or cause to be inspected by his duly appointed assistants, at least once each year between July 1 and September 15, all nurseries and nursery premises in the State of Illinois, as to whether they are infested by dangerous insects or infected by dangerous plant diseases. If upon the inspection of any nursery as above provided it shall appear that said nursery and its premises are free from dangerous insects and dangerous plant diseases, it shall be the duty of the State entomologist upon payment of the expenses of inspection, as certified by him to give or send to the owner of said nursery, or to the person in charge of the same, not later than October 1, a certificate of inspection stating that said nursery and premises are apparently free from such insects and diseases, and such certificate shall be valid, unless revoked for cause as hereinafter provided, for one year from the date of inspection, and no longer.

The provisions of this section shall not apply to florists' greenhouse plants nor to flowers or cuttings commonly known as greenhouse stock, and no certificate shall be required for the shipment of native stock collected in the United States and not grown in nurseries.

If the State entomologist shall find that part of a nursery is infested with dangerous insects or infected by contagious plant diseases and that the remainder of it is not so infested or infected, or if he shall have reason to believe that a nursery is liable, by reason of its proximity to infested or infected premises, to become so infested or infected before the next annual inspection, he may prescribe in writing such measures of precaution, or may make in writing such conditions as to the use of his certificate, as may in his judgment be necessary, and he may withhold his certificate until such conditions have been accepted in writing by the owner of said nursery; and the use of such certificate without taking such measures of precaution or observing such conditions shall subject the owner of said nursery to the penalties prescribed in section 5 for a violation of this act.

Whenever any nurseryman or seller of trees, shrubs, vines, plants, buds, or cuttings commonly known as nursery stock, shall ship or deliver any such stock he shall place and send on each car, box, bale, bundle, package, or piece, a true copy of a valid certificate of inspection, signed by the State entomologist of Illinois, or by another inspector duly approved by him, showing that the said stock has been carefully inspected and found apparently free from any dangerous insects or dangerous plant disease. Any person who shall deliver, ship, or consign for shipment nursery stock without such certificate attached, or who shall use such certificate in connection with nursery stock any and every part of which has not been inspected and certified as aforesaid, or who shall alter or deface such certificate, or who shall use an imperfect copy of such certificate, shall be liable to the penalties prescribed in section 5 for a violation of this act.

If the State entomologist shall find that his certificate of inspection has been used in violation of law, he shall have power to revoke and annul said certificate by written notice to the holder thereof, and such notice shall take effect forthwith, and the use of said certificate after it has been revoked and annulled, and before such revocation has been withdrawn by the State

entomologist, shall subject the holder of said certificate to the penalties provided in section 5 for a violation of this act.

It shall be the privilege of the nurseryman to ship, under the certificate issued to him, nursery stock grown for him elsewhere or purchased by him from other states or countries: *Provided*, that all such stock be received under a certificate satisfactory to the State entomologist stating that it has been inspected where grown and found to be apparently free from dangerous insects and dangerous plant diseases. The State entomologist shall send, once each year not later than July 1, to all nurserymen in the State known to him, a list of official inspectors of other states and foreign countries whose inspection certificates may be accepted in this State, for one year from the date thereof, as equivalent to his own certificate.

Every agent for a nursery outside of Illinois and every dealer not engaged in growing trees, shrubs, plants, or vines, in this State, for sale, who sells or delivers such stock in this State shall, before delivering the same, place on file in the office of the State entomologist a statement made under oath before an officer qualified to administer oaths in the locality where he may reside, or, if a nonresident of the State, in the locality where said stock is sold or delivered, that the said stock has been duly inspected and was received by him accompanied with a valid official certificate of inspection or fumigation, a copy of which certificate shall be filed by him with said statement for the approval of the State entomologist. Upon receipt of said statement and copy of the certificate of inspection the entomologist shall report to the sender his approval or disapproval of said certificate. If disapproved he shall inspect, or cause to be inspected, the nursery stock to which the said statement applies, and if he shall find said nursery stock to be apparently free from dangerous insects and dangerous plant diseases he shall give or send to the owner thereof, upon payment of the expenses of the inspection, a certificate to that effect, and the delivery of such stock without an accompanying certificate of inspection issued by the State entomologist or approved by him shall subject the agent, dealer, or other person selling or delivering the same to the penalties prescribed in section 5 for a violation of this act.

44. Injurious Insects, Nuisance, Inspection, Notice.

SEC. 2. That all gardeners, horticulturists, nurserymen, superintendents of public parks, and other growers of or dealers in plants of any kind upon their own lands, upon leased lands or premises, or upon public parks or highways shall free and keep freed all plants, shrubs, trees, vines, cuttings, scions, buds, stocks or other plant parts grown, cultivated, or dealt in by them, from all injurious insects and fungus pests, which are liable to spread from the plants or premises infested to other plants on the public highways or upon lands belonging to other owners, and all plants, shrubs, trees, or parts of such so infested are hereby declared to be a nuisance to be abated as hereinafter prescribed; and their maintenance, after notice as hereinafter set forth, is hereby declared a misdemeanor punishable as provided in section 5 of this act. If the State entomologist shall have reason to suppose that any nursery, orchard, fruit plantation, or other property or place in this State, is infested by dangerous insects or infected with contagious plant disease, he shall have power to inspect or to cause to be inspected, from time to time, such nursery, orchard, fruit plantation, or other property, and for the purposes of such inspection he and his assistants are authorized, during reasonable business hours, to enter into or upon any farm, orchard, nursery, garden, storehouse, or other building or place used for the growing, storage, packing or sale of trees, plants or fruits; and if the State entomologist shall find, by inspection as aforesaid, that any person, firm, or corporation is maintaining a nuisance as described in this section, he shall notify in writing the owner or occupant of the premises containing the nuisance so disclosed of the fact that such nuisance exists. He shall include in such notice a statement of the conditions constituting such nuisance, an order that the same be abated within a specified time, and a direction, written or printed, pointing out the methods which should be taken to abate the same.

Such notice or order may be served personally, or by depositing the same in the post office, properly stamped, addressed to the owner or occupant of the land or premises upon which such nuisance exists, and the direction for treatment may consist of a printed circular, bulletin, or report of the State entomologist or of the Agricultural Experiment Station, or an extract from the same. If the person so notified shall refuse or fail to abate said nuisance in the manner and within the time prescribed in said notice, the State entomologist may cause such nuisance to be abated, and he shall certify to the owner or person in charge of the premises the cost of abatement, and if not paid to him within sixty days thereafter the same may be recovered, together with the cost of action, before any court in the State having competent jurisdiction. In case the notice and order served as aforesaid shall direct that any growing plant, shrub, or tree shall be destroyed, and the owner or grower of such plant, shrub, or tree shall consider himself aggrieved by such order, he shall have the privilege of appeal, within three days of the receipt of the notice, to the County Court of the county in which said property is situated. The appeal shall be made in like manner as appeals are taken to the County Court from the judgments of justices of the peace. Written notice of such appeal served by mail upon the State entomologist shall operate to stay all proceedings until the decision of the County Court, who may, after investigating the matter, reverse, modify, or confirm the order of the State entomologist. Such decision shall then become the order of the State entomologist, who shall serve the same as hereinbefore set forth, and shall fix a time within which such decision must be carried out. Any person, firm or corporation failing to obey an order of the State entomologist, made and served as prescribed in this section, within the period of time therein specified, shall be deemed guilty of a misdemeanor and liable to punishment as prescribed in section 5 of this act. (As amended by act approved June 3, 1909, in force July 1, 1909. L. 1909, p. 420.)

45. Shipments, Certificate.

SEC. 3. Whenever any trees, shrubs, plants or vines are shipped from place to place in this State, or shipped into this State from another state, country or province, every car, box, bale, bundle, package or piece thereof shall be plainly labeled on the outside with the name of the consignor, the name of the consignee, and a certificate signed by a state or government inspector showing that the contents have been inspected by such inspector, or by his authority since the 1st day of July last preceding, and that the trees, vines, shrubs and plants, there present and therein contained, appear free from all dangerous insects and diseases. Whenever any trees, shrubs, vines, or plants arrive in this State without such certificate plainly fixed on the outside of the package, box or car containing the same, the facts must be reported within twenty-four hours to the State entomologist by the railroad, express or steamboat company, or other person or persons carrying the same, and it shall be unlawful to deliver any such property until it has been inspected by the State entomologist or his assistant and by him certified to be free from dangerous insects or contagious diseases. Any person receiving nursery stock brought into this State from outside this State, and not accompanied by a valid certificate as above prescribed, shall at once notify the State entomologist of that fact, and shall not allow such uncertified stock to leave his possession until it has been inspected and released by the State entomologist or his assistant. Any agent of any railroad, steamboat or express company or any other person or persons carrying such property as aforesaid, or any consignee of such property, who shall fail to give notice to the State entomologist as above required shall be deemed guilty of a violation of this act, and subject to the penalties prescribed in section 5. (As amended by act approved June 3, 1909, in force July 1, 1909. L. 1909, p. 420.)

46. Inspection, Application, Expenses.

SEC. 4. Any owner of an orchard or other fruit plantation in bearing condition may apply to the State entomologist for an inspection of the same

with reference to the presence of the San Jose scale or other dangerous insects or plant diseases liable to prevent the sale or lessen the value of his fruits, agreeing in his application to pay in full the expenses of the inspection, and upon receipt of such application and agreement, or as soon thereafter as may be conveniently practicable, the State entomologist shall comply with such request, and upon receipt of the expenses of the inspection he shall issue to the applicant a certificate [as] to the facts disclosed by the inspection.

47. *Penalty.*

SEC. 5. Any person who shall violate the provisions of this act with reference to the sale, shipment, delivery, receipt, or transportation of nursery stock, or with reference to the use, alteration, or defacement of a certificate of inspection relating to the same, or who shall remove, without the written permission of the State entomologist, infested or infected property concerning whose condition he has received official notice from the entomologist, or who shall maintain a nuisance as described in section 2 of this act, after notice by the State entomologist and direction for its abatement, or who shall offer any hindrance or resistance to the carrying out of this act, shall be adjudged guilty of a misdemeanor, and upon conviction before a justice of the peace shall be fined not less than twenty-five dollars and not more than one hundred dollars for each and every offense, together with all costs of the procedure, and shall stand committed until the same is paid. It shall be the duty of the State entomologist to furnish to the State's attorney all information in his possession concerning violations of this act, and the State's attorney shall prosecute such violations of this act, and amounts so recovered shall be paid into the treasury of the State. (As amended by act approved June 3, 1909, in force July 1, 1909. L. 1909, p. 420.)

further use may be prohibited, subject to such inspection and other disposition of the plants and plant products involved as may be provided for by the Department of Agriculture.

60. *Shipping Information.*

SEC. 12. It shall be unlawful for any person to bring or cause to be brought into this State any nursery stock unless there is plainly and legibly marked thereon or affixed thereto, or on or to the car or other vehicle carrying, or on the bundle, package, or other container of, the same, in a conspicuous place, a statement or a tag or other device showing the names and addresses of the consignors or shippers and the consignees or persons to whom shipped, the general nature of the contents, and the name of the locality where grown, together with a certificate of inspection of the proper official of the state, territory, district, or country from which it was brought or shipped, showing that such plant or plant product was found or believed to be free from insect pests and diseases.

Every person who shall engage in the selling or shipping of nursery stock in this State is hereby required to attach to the outside of each package, box, bale or car-load shipped or otherwise delivered, a tag or poster on which shall appear an exact copy of his valid certificate. 62. *Nursery Stock, Sale.*

SEC. 14. It shall be unlawful for any person to sell, give away, carry, ship, or deliver for carriage or shipment within this State any nursery stock unless such nursery stock has been officially inspected and a certificate issued by the Department of Agriculture stating that said nursery stock has been inspected and found free from insect pests and diseases. It shall, however, be the privilege of a nurseryman holding a valid certificate covering nursery stock grown by him to ship under said certificate nursery stock grown for him elsewhere or purchased by him from other states or countries, provided that all such nursery stock is received under an official certificate acceptable to the Department of Agriculture stating that it has been inspected where grown and found to be apparently free from insect pests and diseases. The Department of Agriculture shall send once each year not later than July 1 to all nurserymen in the State known to it a list of the official inspectors of other states and foreign countries whose inspection certificates may be accepted in this State for one year from the date thereof as equivalent to its own certificate.

64. *Nuisance, Notice, Abatement.*

SEC. 16. If the Department of Agriculture shall have reason to suppose that any property or place in this State is infested or infected by insect pests or diseases, it shall have power to inspect or to cause to be inspected from time to time such property or place, and if it shall find by inspection as aforesaid that any person is maintaining a nuisance, as described in section 15 of this Act, the Department of Agriculture shall give written notice of the facts to the owner or other person in possession or control of the place where found, which said notice shall contain a description of methods by which, and specify a time within which, said nuisance should be abated, and such owner or other person shall proceed to control, eradicate, or prevent the dissemination of, such insect pest or disease within the time and in the manner described by said notice, and shall remove, cut or destroy infested and infected plants and plant products, or things and substances used or connected therewith, if the same are incapable of effective treatment. Whenever such owner or other person can not be found, or shall fail, neglect, or refuse to obey the requirements of said notice, such requirements shall be carried out by the Department of Agriculture if, in the judgment of the department, it is practicable for them so to do, and the Department of Agriculture shall have and enforce a lien for the expense thereof against the place in or upon which such expense was incurred, in the same manner as liens are had and enforced against buildings and lots, wharves and piers, for labor and materials furnished by virtue of contract with the owner.

65. *Requested Inspection, Municipality.*

SEC. 17. Any municipality, park board, or other board or person in control of public grounds may apply to the Department of Agriculture for an inspection of the same with reference to the presence of insect pests or diseases, agreeing in the application to pay in full the expenses of the inspection; and upon receipt of such application and agreement, or as soon thereafter as may be conveniently practicable, the Department of Agriculture may comply with such request, and upon receipt of the expenses of the inspection it shall send to the applicant a statement as to the facts disclosed.

66. *Requested Inspection, Florist.*

Any owner of florist's stock or other herbaceous plants which he wishes to ship into another state or country, may apply to the Department of Agriculture for an inspection of the same with reference to the presence of insect pests or diseases liable to prevent the acceptance of such plants in such state or country, agreeing in his application to pay in full the expenses of the inspection, and upon receipt of such application and agreement, or as soon thereafter as may be conveniently practicable, the Department of Agriculture may comply with such request, and upon receipt of the expenses of the inspection it shall issue to the applicant a certificate to the facts disclosed.

67. *Importation, Quarantine, Notice.*

SEC. 19. Whenever the Department of Agriculture shall find that there exists outside of this State any insect pest or disease, and that in order to safeguard plants and plant products in this State, its introduction into this State should be prevented, the Department of Agriculture shall give public notice thereof, specifying the plants and plant products infested or infected, or likely to become infested or infected therewith, and the movement of such plants or plant products into this State from the infested or infected locality designated in said public notice shall thereafter be prohibited until the Department of Agriculture shall find that the danger of the introduction into this State of such insect pests or diseases from such locality has ceased to exist, of which the Department of Agriculture shall give public notice.

¹⁶ Sections 1 and 2 of this act were held not to be class legislation and separable from the invalid provisions on the ground that small produce commission business in cities of a certain size may afford great opportunities for swindling and be productive of great abuses.

The provisions of the act which relate to the selection and appointment of a board of inspectors and vest them with certain powers were declared invalid for the reason that the legislature cannot delegate the power of appointment to private corporations. *Lasher v. People* (1899), 183 Ill. 226, 232, 236. The invalid provisions are therefore omitted.

¹⁷ The title of this act is in conformity with the requirements of section 13, article 4 of the Constitution. *Hawthorn v. People* (1883), 109 Ill. 302, 312.

People* (1883), 109 Ill. 302, 307, 308.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* (Repealed.)

107. *Communicable Diseases, Investigation, Quarantine, Appraisal, Slaughter.*

SEC. 2. It shall be the duty of said Board of Live Stock Commissioners to cause to be investigated any and all cases, or alleged cases, coming to their knowledge, of communicable diseases among domestic animals, within this State, and to use all proper means to prevent the spread of such diseases, and to provide for the extirpation thereof; and in the event of reasonable ground for the belief that any such communicable disease exists in this State, it shall be the duty of the person owning or having in charge any animal or animals infected with such disease, or any other person having knowledge or reason to suspect the existence of such disease, to immediately notify said *Board of Live Stock Commissioners*, or some member thereof, by communication to said board or member, of the existence of such disease, and thereupon it shall be the duty of said board, or some member thereof, or authorized agent of the board, immediately to cause proper examination thereof to be made, and if such disease shall be found to be a dangerously contagious or dangerously infectious malady, said board, or any member thereof, or the State veterinarian or any assistant State veterinarian, shall order such diseased animals, and such as have been exposed to contagion, and the premises in or on which they are, or which may have been recently occupied by them, to be *strictly quarantined*; and they shall have power to order any premises and farms where the disease exists, or has recently existed, as well as exposed premises and farms, to be put in *quarantine* so that no domestic animal which has been or is so diseased, or has been exposed to such communicable disease, be removed from the premises so quarantined, nor allow any animal susceptible to such disease to be brought therein or thereon, except under such rules and regulations as said Board of Live Stock Commissioners may prescribe, which quarantine, and every quarantine established under the provisions of this act, shall remain in force and effect until removed by order of said board; and said board shall prescribe such *regulations* as they may deem necessary to prevent any such disease from being communicated from any such diseased animal or exposed animal or from the infected premises or through any other means of communication. In all such cases the said Board of Live Stock Commissioners, or in case the number of animals shall not exceed five, any member thereof, shall have power to *order the slaughter* of any or all such diseased or exposed animals. The said board shall also have power to *cause* to be destroyed all barns, stables, premises, fixtures, furniture and personal property infected with any such communicable disease, so far as in their judgment may be necessary to prevent the spread of such disease and where the same cannot be properly disinfected; and to *order the disinfection* of all cars, boats or other vehicles used in transporting animals affected with any such communicable disease, or that have been exposed to the contagion thereof, and the disinfection of all yards, pens and chutes that may have been used in handling such diseased or exposed animals.

And upon his failure so to do, said board, or any member thereof, shall cause such animal

or animals or property to be destroyed and disposed of, and thereupon such owner shall forfeit all right to receive any compensation for the destruction of such animal or animals or property.

When the board, upon the written opinion of the State veterinarian, or of any assistant State veterinarian, determines that any barns, stables, outbuildings or premises are so infected that the same cannot be disinfected, they may quarantine such barns, stables, outbuildings or premises from use for the animals that might be infected by such use, and such quarantine shall continue in force and effect until removed by the board, and a violation of such quarantine shall be punished in the same manner as is provided for violations of other quarantine by this act.

Any person feeling himself aggrieved by any quarantine established under the provisions of this act may appeal to the full Board of Live Stock Commissioners, who shall thereupon sustain, modify or annul such quarantine, as they may deem proper.

Whenever quarantine is established in accordance with the provisions of this act, valid notice of the same may be given by leaving with the owner or occupant of any premises so quarantined, in person, or by delivering to any member of his family, or any employee, over the age of ten years found upon the premises so quarantined, notice thereof, written or printed, or partly written and partly printed, and at the same time explaining the contents thereof. Such quarantine shall be sufficiently proven in any court by the production of a true copy of such notice of quarantine with a return thereon of the service of the same in the manner above required, attested by the seal of the Board of Live Stock Commissioners, with the signature of the proper officer thereof. tion across any of the rivers, creeks, streams, bayous or other water courses wholly within or running through this State in such manner as shall obstruct the free passage of fish up and down or through such water or water courses, to place or cause to be erected in or in connection with such dam or dams, durable and efficient fishways, so that the free passage of fish up and down said waters may not be obstructed. All such fishways shall be maintained and kept in good repair by the person or persons so owning or controlling such dam or other obstruction, during the whole time of the existence of such dam or other obstruction, as aforesaid, so that said *fishway* shall at all times be open and free from obstruction for the passage of fish.

And in case the owner or persons controlling, operating or using any dam or other obstruction, as aforesaid, shall fail or refuse, after ten days' notice, in writing, by the president of the commission to construct and keep in good repair durable and efficient fishways, as provided in this act, then the commission may construct, or cause to be constructed, durable and efficient fishways, or place the same in good repair, said work to be let by contract to the lowest responsible bidder, and may recover in any action of debt in the name of the People of the State of Illinois, before any justice of the peace or court of competent jurisdiction the cost of constructing or repairing such fishway. Any person or persons or corporations owning or controlling any such dam or other obstruction, who shall fail or refuse to comply with the provisions of this section with respect to the construction and maintenance in good repair of such fishways in any such dam, after having been notified in writing by the commission to construct or repair the same, shall be deemed guilty of a misdemeanor, and for each and every twenty days after such notification that such person or persons shall neglect or refuse to comply with the provisions of this section in erecting, maintaining and keeping in good repair such fishways, he or they shall be subject to a penalty of not less than twenty-five (\$25) nor more than two hundred (\$200) dollars.

Such certificate may be suspended at any time by the commission when such fishway is not maintained or repaired as herein required. If such person or persons so owning or controlling any such dam or other obstruction shall fail to construct or maintain such fishway to the satisfaction of the commission, then it shall be prima facie evidence of the violation of this act: *Provided*, that no owner or owners of any dam or dams shall be required by this act, or any other act, to construct or allow the construction of any fishway in such manner as to endanger the permanent durability of such dam or dams, or to impair their usefulness. Nor shall they be required to construct or repair such fishways by using some particular patent on which a patent fee is demanded, or to construct or repair such fishway when high water or climatic conditions may render such work impracticable. The commission to determine whether or not such fishway will endanger the permanent durability of such dam, or impair its usefulness as to such high water or climatic conditions, and in case the owner or owners of such dam dissent to the decision of such commission, then a board of arbitration shall be chosen to determine such matters: One by the commission; one by the owner or owners of such dam, and the two so chosen shall select a third within thirty (30) days after their selection, and if not so selected within thirty days, then the third one shall be selected by the Governor of the State, and the decision of such arbitrators, so chosen, shall be final.

Approved May 14, 1907, in force July 1, 1907. L. 1907, p. 543.

269. Appointment of Food Commissioner and Establishment of Food Department.

²³SECTION 1. That the Governor shall appoint a commissioner who shall be known as the State food commissioner who shall be a citizen of the State of Illinois, and who shall hold his office for a term of four years and until his successor is appointed and qualified, and who shall receive a salary of thirty-six hundred dollars per annum, and his necessary expenses incurred by him in the discharge of his official duties, and who shall be charged with the enforcement of all laws that now exist or that hereafter may be enacted in this State regarding the production, manufacture, sale and labeling of food as herein defined, and to prosecute or cause to be prosecuted any person, firm or corporation, or agent thereof, engaged in the manufacture or sale of any article manufactured or sold in violation of the provisions of any such law or laws. The commissioner shall provide himself with a seal for the authentication of his orders, records or other proceedings, upon which shall be inscribed the words, STATE FOOD COMMISSION, ILLINOIS—SEAL.

The Governor shall also appoint from time to time, as required, a Food Standard Commission, for the purpose of determining and adopting standards of quality, purity or strength, for food products, for the State of Illinois, to consist of three members, one of whom shall be the State food commissioner or his representative, who shall serve without extra pay; one of whom shall be a representative of the Illinois food manufacturing industries, and one of whom shall be an expert food chemist of known reputation; all to be citizens of the State of Illinois, who shall receive fifteen (\$15) dollars per day for a period not exceeding thirty (30) days in one year, and necessary expenses incurred during the time employed in the discharge of their duties. Given under my hand and the seal of said commission this.....day of.....

²² The prevention of fraud and deception in the manufacture of food is a legitimate exercise of the police power of the State; and the Pure Food Law is valid in so far as it makes it impracticable to commit the fraud of selling as genuine cider vinegar other vinegar made so in appearance that the ordinary purchaser cannot distinguish between them. *People v. Henning Co.* (1913), 260 Ill. 554, 558. To the same effect see *People v. Freeman* (1909), 242 Ill. 373, 379.

The prohibition of the sale of adulterated food within this State is a valid exercise of the police power and is not repugnant to the commerce clause of the Federal constitution. *People v. Price* (1913), 257 Ill. 587, 595, aff'd in 238 U. S. 446, 454.

This act does not deprive a municipality of the power to pass an ordinance prohibiting the sale of impure, unwholesome, adulterated or injurious food or substances, if the ordinance is not in conflict with the Pure Food Act; the fact that the penalty under the ordinance is less than that provided by the State law constitutes no such conflict or repugnancy. *City of Chicago v. Union Ice Cream Manufacturing Co.* (1911), 252 Ill. 311.

²³ Repealed by the Civil Administrative code, except part relating to certification, the issue of bulletins, and the making of analyses for charitable institutions.

The said commissioner shall maintain an office and laboratory, where the business of said department may be conducted. This section shall not affect the term of office of the present commissioner and he shall be regarded as having been appointed under the provisions of this act.

The food commissioner shall make analyses and examinations for the State charitable institutions of foods, drugs and such other supplies as the laboratory of the State Food Commission is equipped and prepared to examine and analyze. (Amended by act becoming a law July 12, 1915. L. 1915, p. 700.)

They may also examine all premises, carriages or cars where food is manufactured, transported, stored or served to patrons, for the purpose only of ascertaining their sanitary condition and examining and taking samples of the raw material and finished products found therein, but nothing in this act shall be construed as permitting such officers to inquire into, or examine methods or processes of manufacture, or requiring or compelling proprietors or manufacturers, or packers of proprietary or other food products, to disclose trade rights or secret processes, or methods of manufacture. (Amended by act approved June 6, 1911, in force July 1, 1911. L. 1911, p. 519.)

272. Samples, Procedure.

SEC. 4. The person taking such sample as provided for in section 2 of this act, shall in the case of bulk or broken package goods, divide the same into two equal parts, as nearly as may be, and in the case of sealed and unbroken packages, he shall select two of said packages, which two said packages shall constitute the sample taken, and properly to identify the same, he shall, in the presence of the person from whom the same is taken, mark or seal each half or part of such sample with a paper seal or otherwise, and shall write his name thereon and number each part of said sample with the number, and also write thereon the name of the said dealer in whose place of business the sample is found, and the person from whom said sample is taken shall also write his own name thereon, and at the same time the person taking said sample shall give notice to such person from whom said sample is taken that said sample was obtained for the purpose of examination by the State food commissioner. One part of said sample shall be taken by the person so procuring the same to the State analyst or other competent person appointed for the purpose of making examinations or analysis of samples so taken, and the person taking such sample shall tender to the person from whom it is taken the value of that part thereof so retained by the person taking said sample; the other part of said sample shall be delivered to the person from whom said sample is taken. If the person from whom said sample is taken has recourse upon the manufacturer or guarantor, either by operation of law or under contract for any failure on the part of said sample to comply with the provisions of this act, then said person from whom said sample is taken shall retain for the period of six months that part of said sample so delivered to him in order that said manufacturer or guarantor may have the same examined or analyzed if he so desires: *Provided*, that the person securing said sample may securely pack and box that part thereof retained by him and send the same to the State analyst or other competent person appointed hereunder, and the testimony of the person procuring said sample that he did procure the sample and that he sealed and numbered the same as herein provided, and that he wrote his name thereon, and that he packed and boxed said part thereof and sent the same to the State analyst or other competent person appointed hereunder, and the testimony of the person analyzing said sample that he received the same in apparent good order, that said sample was sealed, and that the number thereof and the name of the sender, as herein provided for, was on said sample, and that the seal at the time same was

received was unbroken, shall be *prima facie* evidence that the sample so received is the sample that was sent, and that the contents thereof are the same and in the same condition as at the time the person so procuring said sample parted with the possession thereof, and the testimony of said two witnesses as above shall be sufficient to make such *prima facie* proof. (Amended by act as above.)

Third—If any valuable constituent of the article has been wholly or in part abstracted or left out: *Provided*, that in the manufacture of skim or separated cheese the whole or part of the butter fats in the milk may be abstracted.

Fourth—If it be mixed, colored, powdered, coated, polished or stained in any manner whereby damage or inferiority is concealed, or it is made to appear better or of greater value than it really is.

Fifth—If it contains any added poisonous or other added deleterious ingredient which may render such article injurious to health: *Provided*, that when in the preparation of food products for shipment they are preserved by an external application, applied in such a manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservatives shall be printed on the covering of the package, the provisions of this act shall be construed as applying only when such products are ready for consumption; and formaldehyde, hydrofluoric acid, boric acid, salicylic acid and all compounds and derivatives thereof are hereby declared unwholesome and injurious.

Sixth—If it consists in whole or in part of a filthy, decomposed or putrid, infected, tainted or rotten animal or vegetable substance or article, or any portion of an animal unfit for food, whether manufactured or not, or if it is the products of a diseased animal, or one that has died otherwise than by slaughter. (Amended by act becoming a law July 12, 1915. L. 1915, p. 700.)

277. *Misbranded Defined.*

²⁵SEC. 9. The term "misbranded," as used herein, shall apply to all articles of food or drink, or articles which enter into the composition of food or drink, the packages or labels of which bear any statement, design or device regarding such article, or the ingredients or substance contained therein which shall be false or misleading in any particular; and to any such products which are falsely branded as to manufacturer, packer or dealer who sells the same or as to the state, territory or country in which it is manufactured or produced. That for the purpose of this act an article shall also be deemed to be misbranded—

In case of food:

First—If it be an imitation of or offered for sale under the distinctive name of another article, or if it does not conform to the standards set forth in this act.

Second—If it be so labeled or branded as to make the identity of the manufacturer, packer or dealer who sells or offers the same for sale uncertain or doubtful; or which is so labeled or branded as to indicate on the receptacle, vessel or container the name of any firm or corporation other than the firm or corporation actually manufacturing, packing or dealing in the article or product so sold or offered for sale; or if it be labeled or branded so as to deceive or mislead the purchaser, or purports to be a foreign product when not so, or if the contents of a package as originally put up shall have been removed in whole or in part and refilled with contents of a different quality or of a different manufacturer, packer or dealer, or if it shall fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilid or any derivative or preparation of any such substances contained therein.

Third—If in package form, the quantity of the contents be not plainly and conspicuously marked on the outside of the package in terms of weight, measure, or numerical count: *Provided, however*, that reasonable variation shall be permitted and tolerances and also exemptions as to small packages shall be established by rules and regulations made in accordance with the provisions of sections 38 of this act.

Fourth—If it be a manufactured article of food or food sold in package form, and is not distinctly labeled, marked or branded with the true name

²⁵ This section, as now amended, removes all doubt arising from an act approved June 25, 1915,

and another act which became a law July 12, 1915, amending the same section.

of the article and with either the name of the manufacturer and place of manufacture, or the name and address of the packer or dealer who sells the same, or if its label does not conform to the regulations set forth in this act.

Fifth—If the package containing it or its label shall bear any statement, design or device regarding the ingredients of the substance contained therein, which statement, design or device shall be false or misleading in any particular: *Provided*, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in following cases:

First—In case of mixtures or compounds which may be now or from time to time hereafter known as articles of food under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where the article has been manufactured or produced.

Second—In case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends and the word "compound," "imitation," or "blend," as the case may be, is plainly stated on the package in which it is offered for sale: *Provided*, that the term "blend" as used herein, shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only; and as applied to alcoholic beverages, only those distilled spirits shall be regarded as "like substances" which are distilled from the fermented mash of grain and are of the same alcoholic strength: *And, provided, further*, that nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods, which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding.

Third—In the case of mixtures of corn syrup (glucose) or corn sugar (dextrose) or corn sugar syrup, with cane or beet sugar (sucrose) or cane or beet sugar syrup, in food, if the maximum percentage of corn syrup (glucose), or corn sugar (dextrose), or corn sugar syrup, in such article of food be plainly stated on the label. (Amended by act approved June 26, 1917, in force July 1, 1917.)

278. *Condemnation and Confiscation of Illegal Foods.*

SEC. 10. Any article of food or drink or liquor that is adulterated or misbranded within the meaning of this act, or that is made, labeled or branded contrary to the provisions of this act, or that does not conform to the definition or analytical requirements provided in this act, shall be liable to be proceeded against in any court of record or before any judge thereof, or before any justice of the peace within whose jurisdiction the same may be found, and seized for condemnation and confiscation; and authority and jurisdiction are hereby vested in the several courts of record, the judges thereof in vacation, and the several justices of the peace, to issue the warrant and to hear and determine the proceedings herein provided for. Such proceedings shall be by complaint, verified by affidavit, and in the name of the People of the State of Illinois against the article or articles proceeded against, particularly describing the same, the place where they are located, the name of the person, firm or corporation in whose possession they are found, and wherein they violate the provisions of this act. Thereupon said court, judge or justice of the peace shall issue a warrant directed to the sheriff, bailiff or any constable of the county, commanding such officer to seize, and take into his possession the article or articles described in the complaint, and bring the same before the court, judge or justice of the peace who issued the warrant, and to summon the person, firm or corporation named in the warrant, and any other person who may be found in possession of the said articles to appear at the time and place therein specified, which service shall be made in the same manner as service of process in civil cases in such court or before such justice of the peace. The warrant shall be returnable not less than five (5) days nor more than fifteen

(15) days from the date of issuing the same, and may be executed and served at any time before the return day thereof; and the hearing shall be at the time and place therein specified unless good cause is shown for a continuance. Upon the hearing the complaint may be amended, and any person, firm or corporation that appears and claims the said article or articles shall be required to file its claim in writing. The hearing shall be summary in its nature, and except as herein otherwise provided, shall conform, as near as may be, to the proceedings in civil cases before such court, judge, or justice of the peace: *Provided*, that either party may demand a trial by jury, and an appeal or writ of error shall lie at the instance of either party to the proper court and no bond shall be required of the people. And if such article is condemned as being adulterated or misbranded, or of a poisonous or deleterious character within the meaning of this act, or as made, labeled, or branded contrary to the provisions of this act, or as not conforming to the definition or analytical requirements provided in this act, the same shall be confiscated and disposed of by destruction or sale, as the court, judge or justice of the peace may direct, and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the treasury of the State of Illinois, but such article shall in no instance be sold contrary to the provisions of this act: *Provided, however*, if the food seized consists of a number of separate and distinct articles assembled together in containers, or in lots, or otherwise, and it shall appear to the court that certain of said articles violate the provisions of this act and certain other of said articles do not violate the provisions of this act, then in such cases, if the articles can be conveniently separated the court may order that such articles be separated and the costs of such separation shall be taxed as other costs of suit. The court may order such articles as are not in violation of this act be released to the claimant or owner thereof, and in cases where the claimant or owner does not appear or refuses to accept such articles the court shall order such articles sold, and the proceeds thereof, after the payment of all costs and charges shall be held subject to the order of the court, and if the claimant or owner thereof do not appear and demand the same within thirty days after said order, the court may at any time thereafter order the proceeds of said sale forfeited and confiscated and paid into the treasury of the State of Illinois, but that part of the articles which violated the provisions of this act shall be disposed of or destroyed as herein directed: *Provided, further*, that upon the payment of the costs of such proceedings and the execution and delivery of a good and sufficient bond to the State food commissioner for the use of the people of the State of Illinois to the effect that such articles shall not be used, sold or otherwise disposed of contrary to the provisions of this act and under such other conditions or supervision as may appear necessary, the court may, by order, direct that such articles be delivered to the owner thereof. (Amended by act becoming a law July 12, 1915. L. 1915, p. 700.)

Such seizure may be had without a warrant and said commissioner, and all inspectors and agents appointed pursuant to law, are hereby given full power and authority of "policemen." Any court having jurisdiction, upon receiving proof of probable cause for believing in the concealment of any food or dairy products or substitutes therefor or imitation thereof, kept for sale or for a purpose, or had in possession, or under control, contrary to the provisions of this act, or other laws which now exist or may be hereafter enacted, shall issue a search warrant and cause a search to be made in any place therefor, and to that end may cause any building, enclosure, wagon, or car to be entered, and any apartment, chest, box, locker, tub, jar, crate, basket or package to be broken open and the contents thereof examined.

No person, firm or corporation shall expose for sale, sell, or take orders for sale and delivery within this State, any compound or mixture of oil of turpentine with other products, or any product which is intended to be used as a substitute for oil of turpentine unless it is exposed for sale and sold under the name, "Substitute for oil of turpentine," and, if the word, "turpentine" is used other than in the name, the true name of each and every ingredient of said product shall also appear, giving preference of order to the ingredients present in the greater proportion, but all letters used in naming the ingredients shall be of the same size and color, using the style of type as hereinafter specified. Each tank car, tank, barrel, keg, can, jug, or vessel (both wholesale and retail), also all storage receptacles containing said product, shall be distinctly and durably marked in a conspicuous place, using the English language and kind of type as hereinafter specified, giving the name under which it is sold, the names of ingredients when required and the name and place of business of the manufacturer or jobber thereof, in continuous list, with no intervening matter of any kind, using ordinary bold-faced capital letters not less than five lines pica in size and there shall be such a contrast between the color of the type and the background of the label as to render the same easily and plainly legible.

388. Violation Defined.

SEC. 13. Any failure to label said article as above specified or any erasures, defacements or carelessness in printing or stamping labels or any statement regarding the composition of said article or any statements of any kind which are misleading or deceptive or which are not true are hereby declared a violation of this act.
